SCHEDULED SUMMER NATURAL GAS FILING APPROVED FOR AMERENUE

Jefferson City (March 27, 2002)----To reflect estimated changes in the cost of natural gas for the upcoming summer season, Union Electric Company d/b/a AmerenUE will increase its natural gas rates effective April 1, 2002. This change will affect AmerenUE natural gas customers in the former SEMO District service area of the Missouri Utilities Company. The summer season covers the period of April through October.

A residential customer currently pays \$0.6291 per Ccf (100 cubic feet of gas). Under this filing, the rate will increase to \$0.6586 per Ccf, an increase of approximately 3 cents per Ccf. When compared to current rates, the effect of the proposed increase on a typical residential customer's natural gas bills for the summer season is an increase of \$9.20 or 3 percent.

Approximately 60% to 70% of a customer's natural gas bill reflects the cost of natural gas from wholesale suppliers. The wholesale cost of natural gas (the cost your local natural gas company must pay to its supplier for natural gas) is not regulated by the Missouri Public Service Commission. The wellhead cost of natural gas is unregulated and is primarily driven by supply and demand. The Missouri Public Service Commission does have regulatory review to ensure that regulated gas companies make prudent decisions in securing natural gas supplies for their customers.

AmerenUE serves approximately 19,400 natural gas customers in the Missouri counties of Cape Girardeau, Stoddard and Scott.
